

TERTIUS LIEBENBERG

FRONTEND / BACKEND
SOFTWARE DEVELOPER

PROFILE

I am a friendly and hard-working software developer with a strong passion for both Web Development, Artificial Intelligence and Robotics. My eagerness to learn new technologies and my creative approach to problem-solving have consistently driven me to achieve ambitious goals. As a disciplined team player, I thrive in collaborative environments where I can contribute to innovative projects and support my colleagues. My dedication to continuous improvement and my commitment to excellence ensure that I always deliver high-quality work.

EXPERIENCE

- 2025 - Present**
SO Logistics
Software Developer
Improving, Maintaining and Supporting existing programs and websites
- 2023 - 2025**
Dezel Business Solutions
Software Developer, Johannesburg
Developed responsive websites using HTML, CSS, Bootstrap, JavaScript, jQuery, and C#. Assembled volumizer units and designed a user-friendly interface for seamless interaction with the hardware. Built Windows-based desktop applications using C#. Took on the role of project leader, managing and coordinating a team to ensure successful project delivery. Created a background service that leveraged barcode scanning and OCR technology to efficiently manage and index critical documents.
- 2022 - 2022**
Freelancing
Software Developer, Boksburg
Contributed to the development of the official website for the HTS Middelburg Festival. Gained hands-on experience with modern technologies, including Linux, Tailwind CSS, Next.js, Node.js, TypeScript, and Firebase.

CERTIFICATES

- Matric (2020)**
- Introduction to Programming Using JavaScript (2021)**
- Introduction to Programming Using HTML and CSS (2021)**
- Introduction to Programming Using Python (2021)**
- Designing and Implementing a Microsoft Azure AI Solution (31/10/2023 - 1/11/2024)**
- AI & Machine Learning (2024)**
